

Wine tastings

can enhance various events such as fundraisers, charity events, rehearsal dinners, anniversary parties, girl's night out, and many more!

Who hosts Peco's wine tastings?

Alex Calla is Peco's Wine Specialist and has been hosting in-store and private wine tastings for over two years. Currently enrolled in the Wine

School of Philadelphia, Alex is bringing Peco's even more expertise! She has hosted wine tastings for community groups, girl's night outs, bridal shops, family events, and charity events.

What does this all cost? Peco's can accommodate most any budget! You don't have to spend a lot to learn about wine and taste different varieties. Alex makes wine approachable at all price points and levels of experience. There is a \$50.00 tasting/materials fee, and the price of wine is discussed tailored to your preferences.

How many people can I invite to the event? Alex can handle up to 20 people alone, and can bring additional support if need be.

Is this limited to only wine? Peco's can provide beer recommendations as well. Hosting a beer and wine tasting is very fun and educational!

Can I buy wine after the event? No wines can be sold at the event, but we can provide you with an order form of the wine tasted for Peco's store pick up. It makes it easier for when you arrive at the store to purchase your products. No need to hunt down your selection based on what you think the label looks like!

How do I get started?
